

# ⚠ Wiring precautions of the DMX Lighting fixtures

TLADR/TLDADR/TL10ADR/TLD10ADR/TL20ADR  
SHL-DMX/SHL-TU-DMX

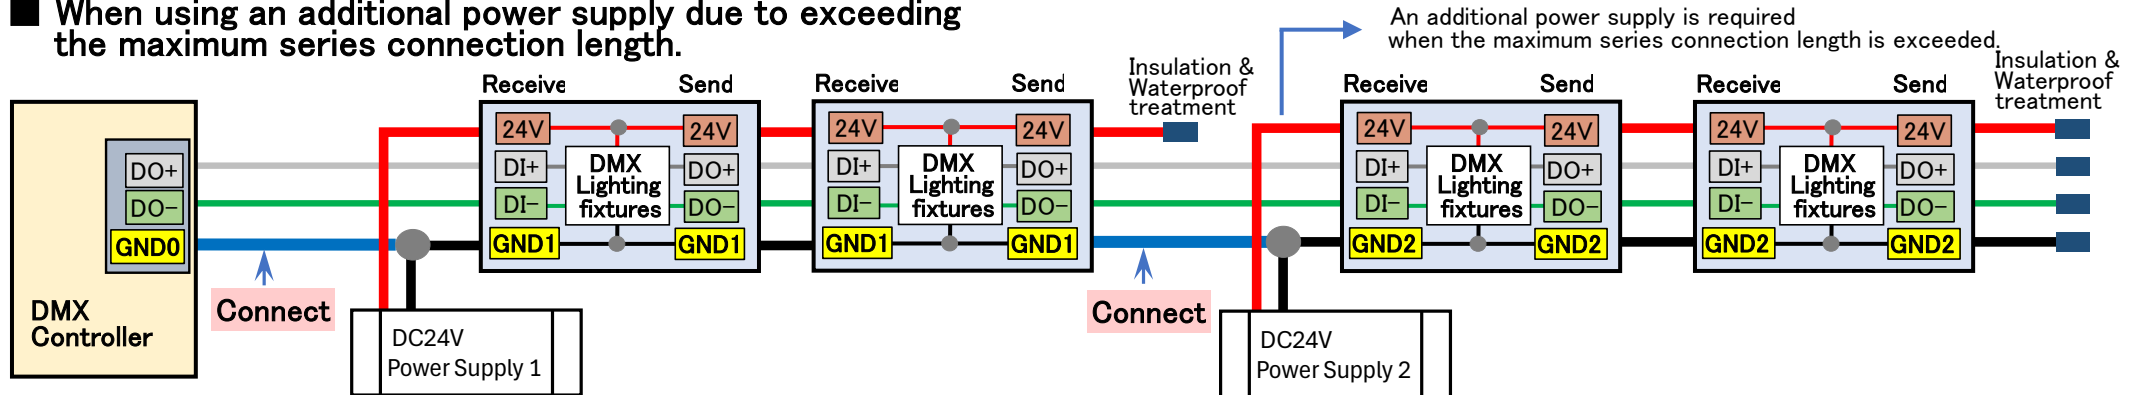

ATEX Co., Ltd

## Point

**Connect the signal GND of the DMX data between send side and receive side.**

**<Note> If you do not do this wiring, the LED may flicker.**

- When using an additional power supply due to exceeding the maximum series connection length.

- When using parallel connection within the maximum series connection length.
